FINAL ANSWER KEY

Question Paper Code: 18/2022/OL Category Code: 344/2021 Exam: Assistant Professor in Rasasasthra and Bhaishajyakalpana Date of Test 31-03-2022 Department Ayurveda Medical Education Alphacode Α Question1: The inflammatory response of corticosteroids are better explained by their binding to nuclear transcription factors in the cell cytosol, which further translocate into the nucleus and subsequently inhibits transcription of DNA to mRNA affecting concerned proteins. This statement better explains A:-Dose-response relationship B:-Pharmacodynamics C:-Pharmacokinetics D:-Therapeutic index Correct Answer:- Option-B Question2:-Find out the correct statement/statements Pharmaceutical equivalents have different active moieties with the same dose and similar therapeutic effects. II. If two drug products produce same therapeutic effects when they are therapeutic equivalents. III. Pharmaceutical alternatives always must have the same amount of the same active IV. Two drug products are bioequivalent if they are pharmaceutical alternatives or pharmaceutical equivalents with similar bioavailability under the same molar concentrations. A:-I and II B:-II and IV C:-I, II and III D:-I. II. III and IV Correct Answer:- Option-B Question3:-Find out the **correct** statement/statements regarding Adverse Drug Reactions (ADR)

I. An exaggerated effect of a drug used in normal doses can be an ADR. II. Allergic reactions that are not dose related but occurs to a pre-exposed drug (sensitized) can be an ADR. III. Unexpected effects of a drug that are often very serious occurring in a small number of people arising due to genetic or metabolic differences relating to that drug metabolism. A:-I and II are correct B:-I and III are correct C:-Only II is correct D:-I. II and III are correct Correct Answer:- Option-D Ouestion4:-All are examples of plausible herb-drug interaction except A:-Allium sativum with warfarin showing increased bleeding B:-Increased plasma concentration of the drug rifampicin in pulmonary tuberculosis in the presence of Piper longum and Piper nigrum C:-Possible potentiation of oral and topical corticosteroids by Glycyrrhiza glabra D:-Increased absorption of orally administered drugs after Cassia senna intake Correct Answer:- Option-D Ouestion5:-The incorrect statement among the following is A:-Cell lines most often offer consistent samples with reproducible results

B:-Use of immortalized human cell lines always need ethical clearance

C:-Cell lines can be useful tools for vaccine and antibody production

D:-Primary cells are difficult to maintain than cell lines

Correct Answer:- Option-B

Question6:-About 10 to 20 mg of this element is present in human body, of which 25 to 40% is in bones. Brain, kidney, liver ad pancreas also contain this element. It is available as a dietary supplement, and is a cofactor to many enzymes crucial for reactive oxygen species scavenging. It also helps in immune response and aid in cholesterol, amino acid and carbohydrate metabolism. Although toxicity from excess dietary intake has not been reported so far, high level occupational exposure and related toxicity can cause neurological symptoms like tremors, hearing loss, muscle spasm etc. It may also cause mania, depression, delusions, head ache and lower extremity weakness. The element described here best suits to

A:-Calcium

B:-Zinc

	C:-Manganese
	D:-Iron
	Correct Answer:- Option-C
Ques	tion7:-All are true regarding heavy metal toxicity except
	A:-Anemia is the classic symptom of chronic metal exposure
	B:-Abdominal pain, nausea, diarrhea and vomiting are the hall marks of acute metal ingestion
	C:-Dehydration can be a symptom of metal toxicity
	D:-None of the above
	Correct Answer:- Option-D
Ques	tion8:-Find out the false statement regarding Ayurveda, Siddha and Unani (ASU) Pharmacovigilance programme.
	A:-There are currently 62 Peripheral Pharmacovigilance Centres in India for ASU
	B:-All India Institute of Ayurveda is the National Pharmacovigilance Centre
	C:-National Institutes of AYUSH are designated as the intermediary Pharmacovigilance Centres
	D:-One of the objectives of the programme is the detection of misleading advertisement related to ASU drugs
	Correct Answer:- Option-A
	tion9:-"The science and art concerned with the preparation and standardization of drugs. Its scope includes the cultivation of plants that are used as drugs, the synthesis of nical compounds of medicinal value, and the analysis of medicinal agents". The definition given is that of
	A:-Pharmacy
ı	B:-Pharmacognosy
	C:-Phytochemistry
ı	D:-Medicinal Chemistry
	Correct Answer:- Option-A
Ques	tion10:-The following Ayurvedic text books are included in the first schedule of Drugs and Cosmetic act except
	A:-Hareetha Samhitha
ı	B:-Rasa Tarangini
	C:-Arya Bhishak
	D:-Arogya Kalpadrumam
	Correct Answer:- Option-A
Ques	tion11:-Find out the false statement regarding the functions of pharmaceutical packaging materials.
	A:-The most fundamental function of packaging material is containment of the pharmaceutical product
	B:-A hermetically sealed container prevents the entry of microorganisms but allows passage of air through it
	C:-Packaging serves as an essential source of information regarding the packaged medicinal products
	D:-Packaging material may offer convenience of usage to the packaged medicinal products
	Correct Answer:- Option-B
Ques	tion12:-Find out the correct statement regarding Ayurvedic Pharmacopoeia India (API).
	A:-API are unique book of standards of AYUSH drugs applicable pan India
	B:-Part II of API comprises of mono-monographs of medicinal plants
	C:-The development of API was based on the recommendations of R. N. Chopra Committee
	D:-The API Part I - Volume I was published in the year 1978
	Correct Answer:-Question Cancelled
attrac	tion13:-A manufacturer is producing an Ayurvedic drug in an insanitary environment with low quality raw materials. He is adding some coloring material to make the formulaticive without mentioning this in the packaging. The labeling does not contain any information on the batch of the medicine. The product comes with an insert claiming comple for diabetes. The drug mentioned here comes under
,	A:-Misbranded drugs
	B:-Adulterated drugs
	C:-The drug is both misbranded and adulterated
	D:-Spurious drug
	Correct Answer:- Option-C
	tion14:-The drug that is not included in list of poisonous substances under the Ayurvedic (including Siddha) and Unani Systems of Medicine in the Drug and Cosmetic Act
Ques	tion14:-The drug that is not included in list of poisonous substances under the Ayurvedic (including Siddha) and Unani Systems of Medicine in the Drug and Cosmetic Act A:-Parada

	C:-Anjana
	D:-Tuttha
	Correct Answer:- Option-C
Que	stion15:-The minimum area required for a quality control section as per GMP for Ayurvedic drug manufacturing
	A:-250 square feet
	B:-200 square feet
	C:-500 square feet
	D:-150 square feet
	Correct Answer:- Option-D
Que	stion16:-A person marketing a herbal powder (the drug has no proven anticancer properties) claiming that the drug is very effective in curing cancer. The person is violating
	A:-Section 3 of the Drug and Magic Remedies Act : Prohibition of advertisement of certain drugs for treatment of diseases and disorders
	B:-Section 4 of the Drug and Magic Remedies Act : Prohibition of misleading advertisement relating to drugs
	C:-Both Section 3 and Section 4 of the Drug and Magic Remedies Act
	D:-Section 5 of the Drug and Magic Remedies Act : prohibition of advertisement of magic remedies for certain diseases and disorders
	Correct Answer:- Option-B
l. the	stion17:-During the development of Ayurveda, Siddha and Unani (ASU) drugs/Patent or Proprietary Medicines, the following objectives are satisfied in which stage of clinical trials? To evaluate the effectiveness of an ASU drug/Patent or Proprietary Medicines for a particular indication or indications in patients with the condition under study and to determine common short-term side-effects and risks associated with the drug. Evaluation of potential study endpoints, therapeutic regimens (including concomitant medications) and target populations (e.g. mild versus severe disease) for further studies.
	A:-Therapeutic exploratory trials
	B:-Human Pharmacology
	C:-Therapeutic confirmatory trials
	D:-Post Marketing Trials
	Correct Answer:- Option-A
Que	stion18:-The principle of ethics that states "The due observance of all the principles, guidelines or prescriptions laid down generally or in respect of the research or experiment" is
	A:-Principles of totality of responsibility
	B:-Principles of compliance
	C:-Principles of institutional arrangements
	D:-Principles of accountability and transparency
	Correct Answer:- Option-A
Que	stion19:-Congealing point is a quality control parameter suitable for
	A:-Arka
	B:-Asava Arishta
	C:-Choorna
	D:-Ghrirtha
	Correct Answer:- Option-D
Que	stion20:-Nasya is included in
	A:-Oral route of drug administration
	B:-Nasal route of drug administration
	C:-Parenteral route of drug administration
	D:-Topical application
	Correct Answer:- Option-B
Que Karı	stion21:-Identify the medicinal formulation from the following description: soora, tamra and loha are among the ingredients. Madhu is used for mixing and homogenization of the powdered ingredients. Four gunja is the recommended classical dose.
	A:-Chandrodaya rasa
	B:-Chandraprabha vati
	C:-Chandramrita rasa
	D:-Purna chandrodaya rasa
	Correct Answer:- Option-C
	stion22:-Identify the formulation from the description: Useful in apasmara and ajeerna. Hingula and Vatsanabhi are among the ingredients. Jambeera rasa is the bhavan dravya one gunja is the dose.
	A:-Arogyavardhini vati

B:-Karpura rasa	
C:-Ananda bhairava rasa	
D:-Kasthuri bhairava rasa	
Correct Answer:- Option-C	
Question23:-This formulation has only one ingredient which undergoes bhavana in amalaki rasa. The dose of the formulation is dwivallam. The ingre	edient and yoga is
A:-Gairika, Kamadudha rasa	
B:-Gairika, Kasthurbhairava rasa	
C:-Sankha bhasma, Kamadudha rasa	
D:-Swarna bhasma, Kasthuri bhairava rasa	
Correct Answer:- Option-A	
Question24:-Following are the ingredients of vasantha kusumakara rasa except	
A:-Kantaloha bhasma	
B:-Rajata bhasma	
C:-Yasada bhasma	
D:-Pravala bhasma	
Correct Answer:- Option-C	
Question 25:-This formulation has to be taken in empty stomach and raktha sali annam is preferred. The parpati preparation among the following pro	oviding rasayana effect is
A:-Sweta parpati	
B:-Rasa parpati	
C:-Loha parpati	
D:-Pancamrita parpati	
Correct Answer:- Option-C	
Question26:-The ganas used in the preparation of ayaskriti kalpa as per Ashtanga Hridaya is	
A:-Argwadhadi, Asanadi	
B:-Asanadai, Vatsakadi	
C:-Argwadadi, Vatskadi	
D:-Thriphala, Eladi	
Correct Answer:- Option-B	
Question27:-All drugs are included in the essential drug list of Ayurveda except	
A:-Thriphala ghritha	
B:-Murivenna	
C:-Kutajarishta	
D:-Sukumara avaleha	
Correct Answer:- Option-D	
Question28:-The dhathu bhasmas as ingredients present in hemagarbha pottali is	
A:-Rajatha bhasma and Swarna bhasma	
B:-Rajatha bhasma and Tamra bhasma	
C:-Swarna bhasma and Loha bhasma	
D:-Swarna bhasma and Tamra bhasma	
Correct Answer:- Option-D	
Question29:-All are ingredients of Swarna vanga except	
A:-Parada	
B:-Vanga	
C:-Navasadara	
D:-Gouri pashana	
Correct Answer:- Option-D	
Question 30:-Khamira, lavuka and majun are dosage forms similar to	
A:-Avaleha kalpana	
B:-Arka kalpana	
C:-Kwatha kalpana	

D:-Phanta kalpana	
Correct Answer:- Option-A	
Question31:-The correct statement regarding preservatives is	
A:-Preservatives should be effective against selected organisms anticipated in the formulation	
B:-Preservatives should interact with the ingredients of the medicinal formulations so as to impart a positive effect to the body	
C:-Preservatives should have a pleasant odour and taste	
D:-Preservatives should remain stable throughout the shelf life of the product under preservation	
Correct Answer:- Option-D	
Question32:-Identify the formulation specifically indicated in vishama jwara, when administered along with thila thaila is	
A:-Kapaha kethu rasa	
B:-lcchabhedi rasa	
C:-Rasona kalka	
D:-Lavangadi vati	
Correct Answer:- Option-C	
Question33:-Which among the following is an ingredient of rasna sapthaka kashaya?	
A:-Tinospora crispa (L.) Hook. f. & Thomson	
B:-Boerhavia diffusa L. nom. Cons	
C:-Celastrus dependens Wall	
D:-Both 1 and 2	
Correct Answer:- Option-B	
Question34:-Which among the following is not a specific indication of Chyavana prasha avaleha as per Charaka Samhitha?	
A:-Pipasa	
B:-Vatha sonitha	
C:-Uro roga	
D:-None of the above	
Correct Answer:- Option-D	
Correct Answer:- Option-D Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50	g?
	g ?
Question 35:- How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive.	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A : Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B : Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct	g?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A : Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B : Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Madhu	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Madhu D:-750 mg, Ardraka swarasa	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Ardraka swarasa Correct Answer:- Option-B	g?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Madhu D:-750 mg, Ardraka swarasa Correct Answer:- Option-B Question38:-The medium of application of chandrodaya varti is	g?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Madhu D:-750 mg, Ardraka swarasa Correct Answer:- Option-B Question38:-The medium of application of chandrodaya varti is A:-Ajaksheera	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Madhu D:-750 mg, Ardraka swarasa Correct Answer- Option-B Question38:-The medium of application of chandrodaya varti is A:-Ajaksheera B:-Goksheera	g ?
Question35:-How much vamsalochana is necessary for the preparation of sithopaladai choorna and thaleesadi choorna respectively, if the quantity of ela taken is 50 A:-400 g and 500 g B:-500 g and 400 g C:-400 g and 600 g D:-300 g and 200 g Correct Answer:- Option-A Question36:-Statement A: Lavana bhaskara choorna should be packed in airtight glass containers or good quality plastic containers. Statement B: Apamarga kshara and sarja kshara present in lavana bhaskara choorna are largely corrosive. A:-Both A and B are correct and B is the correct explanation of A B:-Both A and B are correct and B is not the correct explanation of A C:-A only is correct D:-B only is correct Correct Answer:- Option-C Question37:-The dose and anupana respectively of sanjeevani vati in vishoochika is A:-500 mg, Madhu B:-250 mg, Ardraka swarasa C:-250 mg, Madhu D:-750 mg, Ardraka swarasa Correct Answer:- Option-B Question38:-The medium of application of chandrodaya varti is A:-Ajaksheera	g ?

Correct Answer:- Option-A

Que	stion47:-Drutatwa, nirlepata and laghutwa are the indications of
	A:-Vida
	B:-Bijavarta
	C:-Swanga seetha
	D:-Druthi
	Correct Answer:- Option-D
Que	stion48:-Find out the false statement from the following (based on Rasa tarangini)
	A:-Both dravaka gana and mitra panchaka are used for melting of metals or minerals
	B:-Dravaka gana contains guda instead of guggulu in mitrapanchaka
	C:-Dravaka gana has six ingredients and mitrapanchaka has five ingredients
	D:-All drugs of mitrapanchaka are included in dravaka gana
	Correct Answer:- Option-B
Que	stion49:-The musha specifically used for the preparation of parpati is
	A:-Vrintaka moosha
	B:-Pakwa moosha
	C:-Malla moosha
	D:-Gara moosha
	Correct Answer:- Option-C
Que	stion50:-The puta used for the preparation of gouri pashana bhasma is
	A:-Valuka puta
	B:-Bhanda puta
	C:-Bhudara puta
	D:-All the above
	Correct Answer:-Question Cancelled
	stion51:- Statement A : Preferably mercury should be kept in Aluminum vessels. tement B : Mercury cannot form amalgam with aluminum.
	A:-Both A and B are correct and B is the correct explanation of A
	B:-Both A and B are correct and B is not the correct explanation of A
	C:-Both A and B are wrong
	D:-A only is correct
	Correct Answer:- Option-C
	stion52:-A 35 year old male suddenly developed a "pins and needle" sensation on hands, feet and around mouth with loss of peripheral vision. His walking was soon impaired with culty in speech, hearing and walking. Which among the following better explains the symptoms?
