

# PROVISIONAL ANSWER KEY

Question Paper Code:	52/2023/OL
Category Code:	274/2022
Exam:	Staff Nurse Grade II (SR for SC/ST)
Medium of Question:	English
Date of Test	21-03-2023
Department	Health Services
Alphacode	A

Question1:- \_\_\_\_\_ is a polypeptide hormone produced by parafollicular C-cells of Thyroid gland.

- A:-Calcitonin
- B:-Thyroxine
- C:-Tri-iodothyronine
- D:-Parathormone

Correct Answer:- Option-A

Question2:- \_\_\_\_\_ is Cranial Nerve V.

- A:-Olfactory Nerve
- B:-Optic Nerve
- C:-Facial Nerve
- D:-Trigeminal Nerve

Correct Answer:- Option-D

Question3:-The amount of filtrate formed in all the nephrons of both kidneys in one minute is termed as

- A:-Filtration Fraction
- B:-Glomerular Filtration Rate
- C:-Glomerular capillary pressure
- D:-Colloidal osmotic pressure

Correct Answer:- Option-B

Question4:-The longest and strongest bone of the body is

- A:-Radius
- B:-Femur
- C:-Ulna
- D:-Scapula

Correct Answer:- Option-B

Question5:-Pepsinogen is secreted by

- A:-Chief cells
- B:-Parietal cells
- C:-Goblet cells
- D:-Pancreas

Correct Answer:- Option-A

Question6:-Bacillus of tuberculosis was discovered by

- A:-Neisser
- B:-Hansen
- C:-Robert Koch
- D:-Joseph Lister

Correct Answer:- Option-C

Question7:-Normal Flora which lie on or in our body with complete harmony without causing damage is called

- A:-Saprophytes
- B:-Commensals
- C:-True pathogens
- D:-Facultative pathogens

Correct Answer:- Option-B

Question8:-Spherical or oval shaped bacteria are classified as

- A:-Bacilli
- B:-Spirilla
- C:-Vibrios
- D:-Cocci

Correct Answer:- Option-D

Question9:-Infectious diseases transmitted from animals to human beings is called

- A:-Opportunistic infection
  - B:-Vertical transmission
  - C:-Zoonoses
  - D:-Nosocomial infection
- Correct Answer:- Option-C

Question10:-Modified Acid fast staining commonly used for staining mycobacterium tuberculosis is

- A:-Ziehl Neelsen staining
  - B:-Gram staining
  - C:-Negative staining
  - D:-None of the above
- Correct Answer:- Option-A

Question11:-The most primitive structure of human personality operating according to the pleasure principle is called

- A:-Ego
  - B:-Id
  - C:-Super Ego
  - D:-Conscious level
- Correct Answer:- Option-B

Question12:-Intelligence Quotient is

- A:-Mental Age/Chronological Age  $\times$  100
  - B:-Retrieval
  - C:-Chronological Age/Mental Age  $\times$  100
  - D:-None of the above
- Correct Answer:- Option-A

Question13:-The ego defence mechanism in which unconsciously discharging pent-up feelings to a less threatening object is

- A:-Repression
  - B:-Denial
  - C:-Displacement
  - D:-Conversion
- Correct Answer:- Option-C

Correct Answer:- Option-A

Question29:-In a health education session, a nurse explains reasons for chronic cough except

- A:-Angiotensin converting enzyme inhibitors
- B:-Chronic smoking
- C:-Beta blockers
- D:-Chronic bronchitis

Correct Answer:- Option-C

Question30:-The best indicator for identifying the adequacy of fluid replacement therapy in acute phase of burns

- A:-Serum Potassium level
- B:-Serum sodium
- C:-Sunken eyes and skin turgor
- D:-Urine output

Correct Answer:- Option-D

Question31:-Which of the following is not a primary prevention ?

- A:-Pulse polio immunisation
- B:-Vitamin A supplementation
- C:-Breast self-examination for tumour
- D:-Isoniazid (INH) to a baby breastfed by a sputum positive tubercular mother

Correct Answer:- Option-C

Question32:-Which is the best measure for evaluating standards of therapy ?

- A:-Specific Death Rate
- B:-Case Fatality Rate
- C:-Survival Rate
- D:-Crude Death Rate

Correct Answer:- Option-C

Question33:-The first person becoming sick in an epidemic is called

- A:-Index case
- B:-Primary case
- C:-Secondary case
- D:-None of the above

Correct Answer:- Option-B

Question34:-Vaccine contraindicated in pregnancy is

- A:-Rubella
- B:-Typhoid
- C:-Diphtheria
- D:-Hepatitis B

Correct Answer:- Option-A

Question35:-Commonest agent causing diarrhoeal diseases in infants and children is

- A:-Escherichia coli
- B:-Rotavirus
- C:-Vibrio Cholerae
- D:-Salmonella

Correct Answer:- Option-B

Question36:-All are true about an 'Ideal contraceptive' except

- A:-Safe and inexpensive
- B:-Irreversible
- C:-Independent of coitus
- D:-Does not require frequent administration

Correct Answer:- Option-B

Question37:-All of the following are food fortifications except

- A:-Iodization of salt
- B:-Addition of Vitamins A and D to vanaspati ghee
- C:-Addition of colour to saccharin
- D:-Addition of iron to wheat flour

Correct Answer:- Option-C

Question38:-Which of the following vitamins functions like a steroid hormone ?

- A:-Vitamin A
- B:-Vitamin B1
- C:-Vitamin C
- D:-Vitamin D

Correct Answer:- Option-D

Question39:-Which of the following mineral element causes pathological changes in bones and teeth in its excess as well as deficiency ?

- A:-Chlorine
- B:-Fluorine
- C:-Zinc
- D:-Copper

Correct Answer:- Option-B

Question40:-Name the program introduced by Govt. of Kerala for differently abled persons for rehabilitation in 2017 ?

- A:-Kaithangu
- B:-Ardram
- C:-Kaivalya
- D:-Athijeevanam

Correct Answer:- Option-C

Question41:-Normal ET `CO<sub>2</sub>` value of an intubated patient is

- A:-60 – 70 mm of Hg
- B:-35 – 45 mm of Hg
- C:-20 – 30 mm of Hg
- D:-25 – 35 mm of Hg

Correct Answer:- Option-B

Question42:-Metabolic emergency frequently found in Small Cell Lung Cancer is

- A:-SIADH
- B:-Hypercalcaemia
- C:-Metabolic encephalopathy
- D:-Tumour Lysis Syndrome

Correct Answer:- Option-A

Question43:-Immune reaction occurring in blood transfusion reaction is a type of

- A:-Microangiopathic reaction
- B:-Auto immune reaction
- C:-Macroangiopathic reaction
- D:-Isoimmune reaction

Correct Answer:- Option-D

Question44:-Post Myocardial Infarction patient if complaints of chest pain increasing with deep breath, which nursing action is appropriate ?

- A:-Obtain vital signs and auscultate for pericardial friction rub
- B:-Obtain 12 lead ECG and inform physician immediately
- C:-Give high flow oxygen
- D:-Give SOS analgesic and observe for 30 minutes

Correct Answer:- Option-A

Question45:-A patient after gastrectomy complaints of sweating, weakness, palpitation and dizziness 15-30 minutes after eating, which among the following is the best advice to give ?

- A:-Reduce fat and protein in diet
- B:-Have three regular full meals
- C:-Don't take fluids with meals but 30-45 minutes before or after meals
- D:-Have a concentrated sweet dish after meal

Correct Answer:- Option-C

Question46:-Lowest possible dose of Epoetin alpha is used to treat anaemia in chronic kidney disease because

- A:-High dose is associated with high rate of thromboembolic events
- B:-It is highly hypersensitive
- C:-Minimum dose can stimulate erythropoietin production and it is costly
- D:-It is nephrotoxic in nature

Correct Answer:- Option-A

Question47:-Accumulation of hydrophilic mucopolysaccharides in the dermis and other tissues is seen in

- A:-Scleroderma
- B:-Systemic Lupus Erythematosus

C:-Elephantiasis

D:-Myxoedema

Correct Answer:- Option-D

Question48:-ABG value of a patient shows pH 7.0,  $\text{PaO}_2$  90 mmHg,  $\text{PaCO}_2$  23 mmHg,  $\text{HCO}_3$  12 mEq/L. What does it indicate ?

A:-Compensated Respiratory Acidosis

B:-Uncompensated metabolic acidosis

C:-Partly compensated metabolic acidosis

D:-Partly compensated respiratory acidosis

Correct Answer:- Option-C

Question49:-A patient complaints of drawing sensation on one side of the face followed by paralysis of all ipsilateral muscles is admitted to your unit. Which among the following is the most possible diagnosis ?

A:-Tic douloureux

B:-Bell's palsy

C:-Meniere's disease

D:-Glossopharyngeal neuralgia

Correct Answer:- Option-B

Question50:-Pterygium can be defined as

A:-White deposits found on the cornea

B:-Fleshy triangular shaped growth on the conjunctiva

C:-Cyst found on the conjunctiva

D:-Scarring of the cornea

Correct Answer:- Option-B

A:-Attentional impairment

B:-Asociality

C:-Alogia

D:-Ambivalence

Correct Answer:- Option-D

Question58:-A child presents with low par accuracy in the use of speech sounds. The speech sounds are omitted or substituted. This disorder is

A:-Dyslexia

B:-Dysorthographia

C:-Dyslalia

D:-Dyspraxia

Correct Answer:- Option-C

Question59:-A known alcoholic client, admitted to deaddiction centre has been started on disulfiram. The usual dose of disulfiram is

A:-250 mg - 500 mg

B:-750 mg - 1000 mg

C:-50 mg - 100 mg

D:-100 mg - 200 mg

Correct Answer:- Option-A

Question60:-The nurse renders parental skill training during antenatal and postnatal visit. This approach is

A:-Secondary prevention

B:-Primary prevention

C:-Tertiary prevention

D:-Primordial prevention

Correct Answer:- Option-B

Question61:-The birth weight of a baby triples by

A:-8 months

B:-9 months

C:-12 months

D:-6 months

Correct Answer:- Option-C

Question62:-The cardinal features of nephrotic syndrome are the following except

A:-Oedema

B:-Hypoalbuminaemia

C:-Proteinuria

D:-Hyponatraemia

Correct Answer:- Option-D

Question63:-Congenital malformation in which urethral opening is on the dorsum of the penis

A:-Hypo spadias

B:-Epispadias

C:-Phimosis

D:-Ectopia vesica

Correct Answer:- Option-B

Question64:-APGAR score consists of the following components except

A:-Heart rate

B:-Respiration

C:-Temperature

D:-Muscle tone

Correct Answer:- Option-C

Question65:-The rate of chest compression to ventilation ratio for newborn resuscitation is

A:-3 : 1

B:-1 : 3

C:-3 : 2

D:-2 : 1

Correct Answer:- Option-A

Question66:-Which among the following factor is closely associated with retinopathy of prematurity ?

A:-Congenital anomalies

B:-Low birth weight

C:-Sepsis

D:-Phototherapy

Correct Answer:- Option-B

Question67:-Congenital anomaly characterised by a ganglionic segment of bowel.

A:-Intestinal atresia

B:-Volvulus

C:-Hirschsprungs disease

D:-Intussusception

Correct Answer:- Option-C

Question68:-Markedly retarded growth, psychomotor changes and oedema are essential features of

A:-Kwashiorkor

B:-Marasmus

C:-Tetanus

D:-Pellagra

Correct Answer:- Option-A

Question69:-The following are components of oral rehydration solution except

A:-Potassium chloride

B:-Sodium chloride

C:-Potassium citrate

D:-Sodium citrate

Correct Answer:- Option-C

Question70:-An acute infectious disease caused by entero-virus

A:-Poliomyelitis

B:-Diphtheria

C:-Typhoid fever

D:-Mumps

Correct Answer:- Option-A

Question71:-Nuchal translucency in USG is a strong marker of

A:-Down's syndrome

B:-IUGR

C:-IUD

D:-Fetal macrosomia

Correct Answer:- Option-A

Question72:-Serum hCG will not show characteristic rise in

A:-Multiple pregnancy

B:-Molar pregnancy

C:-Ectopic pregnancy

D:-Normal pregnancy

Correct Answer:- Option-C

Question73:-Which is the leading cause of MMR in India ?

A:-Haemorrhage

B:-Sepsis

C:-Unsafe abortion

D:-Eclampsia

Correct Answer:- Option-A

Question74:-Which of the following is a positive sign of pregnancy during first trimester ?

A:-Hegar's sign

B:-USG evidence of embryo

C:-Oslander's sign

D:-Chadwick's sign

Correct Answer:- Option-B

Question75:-Detection of which immunoglobulin by cordocentesis indicates intrauterine infection

A:-IgA

B:-IgG

C:-IgM

D:-IgE

Correct Answer:- Option-C

Question76:-Which is the shortest diameter of pelvic inlet ?

- A:-Antero posterior diameter
- B:-Transverse diameter
- C:-Oblique diameter
- D:-Sacrocyloid diameter

Correct Answer:- Option-D

Question77:-All of the following are haematological changes during pregnancy except

- A:-Blood volume increases
- B:-Total Hb increases
- C:-Haematocrit increases
- D:-Plasma volume increases

Correct Answer:- Option-C

Question78:-Maternal component of placenta is developed from which layer ?

- A:-Decidua basalis
- B:-Decidua parietalis
- C:-Decidua capsularis
- D:-Chorion frondosum

Correct Answer:- Option-A

Question79:-By which process glucose is transferred to the fetus ?

- A:-Simple diffusion
- B:-Facilitated diffusion
- C:-Pinocytosis
- D:-Active transport

Correct Answer:- Option-B

Question80:-Which is the most commonly used inhalation analgesia in labour ?

- A:-Entonox
- B:-Nitric oxide
- C:-Meptazinol
- D:-Diamorphine

Correct Answer:- Option-A

Question81:-The method and practice of teaching adult learners is termed as

- A:-Andragogy
- B:-Pedagogy
- C:-Heutagogy
- D:-None

Correct Answer:- Option-A

Question82:-Harmonious blend of the diverse philosophies of Education refers to

- A:-Eclecticism
- B:-Naturalism
- C:-Idealism
- D:-Realism

Correct Answer:- Option-A

Question83:-A formal tentative statement of the expected relationship between two or more variables under a research study is

- A:-Research problem
- B:-Research design
- C:-Hypothesis
- D:-Abstract

Correct Answer:- Option-C

Question84:-Brief description of events or situations to which respondents are asked to react and provide information about how they would handle the situation described in research is

- A:-Q Sorts
- B:-Vignettes
- C:-Semantic differential scale
- D:-Ecologic momentary assessment

Correct Answer:- Option-B

Question85:-The subjects may behave in a particular manner because they are aware of them being observed in Research is \_\_\_\_\_ effect.

- A:-Hawthorne
- B:-Experimental

C:-Novelty

D:-Halo effect

Correct Answer:- Option-A

Question86:-Recruiting all the people from an accessible population who meet the eligibility criteria over a specified time interval or for a specified sample size for research is a \_\_\_\_\_ sampling.

A:-Cluster

B:-Stratified

C:-Systematic

D:-Consecutive

Correct Answer:- Option-D

Question87:-Ethical principle that empower persons to make free decisions can be implemented by

A:-Consent

B:-Matching

C:-Randomising

D:-Confounding

Correct Answer:- Option-A

Question88:-The qualitative research approach is to trace out precisely the live experience of people is \_\_\_\_\_ research.

A:-Grounded theory

B:-Ethnographic

C:-Phenomenological

D:-Historical

Correct Answer:- Option-C

Question89:-The extent to which an instrument consistently measures a concept in a research study is known as

A:-Validity

B:-Reliability

C:-Triangulation

D:-Lambda

Correct Answer:- Option-B

Question90:-The purpose statement in research should identify the study variables and

A:-Design

B:-Data collection tool

C:-Statistical method

D:-Population

Correct Answer:- Option-D

Question91:-The process of choosing right candidate for the right job in management process is known as

A:-Selection

B:-Recruitment

C:-Induction

D:-Promotion

Correct Answer:- Option-A

A:-Authoritarian

B:-Laissez-faire

C:-Bureaucratic

D:-Democratic

Correct Answer:- Option-D

Question93:-What is the Nurse-Patient ratio in an intensive care unit of a hospital, \_\_\_\_\_ as per Indian Nursing Council.

A:-1 : 5

B:-1 : 3

C:-1 : 1

D:-1 : 10

Correct Answer:- Option-C

Question94:-The force that prompts the individuals to observe rules, regulations, standards, procedures necessary for an organisation is

A:-Authority

B:-Discipline

C:-Power

D:-Delegation

Correct Answer:- Option-B

Question95:-Barriers of communication arising from the linguistic capacity of the sender and receiver is known as \_\_\_\_\_ barrier.

- A:-Organisational
- B:-Psychological
- C:-Mechanical
- D:-Semantic

Correct Answer:- Option-D

Question96:-In management process the inventory that expires or loses its value overtime and eventually becoming worthless is termed as \_\_\_\_\_ items.

- A:-Perishable
- B:-Non perishable
- C:-Furnitures
- D:-Equipments

Correct Answer:- Option-A

Question97:-The ethical principle of telling truth is known as

- A:-Fidelity
- B:-Confidentiality
- C:-Veracity
- D:-Justice

Correct Answer:- Option-C

Question98:-Which among the following is a written defamation ?

- A:-Slander
- B:-Assault
- C:-Libel
- D:-Battery

Correct Answer:- Option-C

Question99:-The factual statement of the duties and responsibilities of a specific job is known as

- A:-Job description
- B:-Job specification
- C:-Job evaluation
- D:-Job rotation

Correct Answer:- Option-A

Question100:-Collection, compilation, analysis and distribution of data related to important events termed as

- A:-Survey
- B:-Surveillance
- C:-Census
- D:-Vital statistics

Correct Answer:- Option-D
